

## Guidance/Forms

Guidance notes for all Registry products and services are available in this section. They have been arranged by subject matter. Guidance notes are also available for download on the relevant pages throughout the site. Royal Court under Section 511 of the law for an order that the decision be set aside or modified.

## Welcome to the Guernsey Registry website.

This site provides information on the various registers maintained by the Registry as required under Guernsey legislation.

In addition, this site publishes notices in accordance with the Companies (Guernsey) Law 2008 and provides guidance notes on the administration of limited companies and limited partnerships, foundations, limited liability partnerships, Guernsey Finance funding submissions, recognised auditor registrations and using the online services portal.

## Guernsey Registry Consultations

The Guernsey Registry has today released two consultations, on behalf of the Office of the Registrar.

The first of the consultations relates to proposed additions to the information gathered as part of the annual validation or renewal process for legal persons registered in Guernsey. The gathered information will be used to further understand risk and for the continuing development of an enhanced risk approach to oversight and enforcement. It is anticipated that gathering this additional information via the annual validation/renewal process will remove the burden on industry of responding to ad hoc requests for such information from the Registrar, allowing legal persons and their administrators to focus on their primary functions and objectives.
